

BUILDING GREEN with Anvil

Anvil products, made from **90% recycled materials**, can help building owners earn points toward LEED certification.

GOAL: To Build Green.

Achieve LEED certification by designing and constructing buildings with maximum energy efficiency and cost savings that require less maintenance, and contribute to the long-term sustainability of your community's environment.

Anvil is a proud member of the USGBC.

Gruvlok® Couplings, Fittings, and Flanges
Anvil Cast and Malleable Threaded Fittings
Anvil Cast Iron Flanged Fittings
Anvil Pipe Hangers and Supports

HOW TO REACH GOAL: Talk to Anvil International.

Whether your building involves New Construction or Existing Buildings, Anvil can help you achieve points toward LEED certification through the Materials & Resources category. Consult with Anvil on incorporating the right products and design elements to achieve maximum energy efficiency and water savings.
